

HomeCU LLC Announces Preferred Relationship with Symitar CruiseNet for Home Banking and Mobile Services

Boise, Idaho – 2/22/2017 – Home CU LLC announced today that it has established a preferred relationship with Symitar® to provide home banking, mobile banking, eStatements and web design for CruiseNet® credit unions.

Through this relationship, HomeCU’s desktop home banking and mobile banking apps are integrated with Symitar’s CruiseNet core processing system. This integration provides credit unions the convenience, compatibility and security they need in the mobile market.

“It has become vital that credit unions offer their members multiple access channels to their accounts. The direct integration of CruiseNet and HomeCU’s desktop and mobile banking meets the credit unions’ needs for this. Additionally, through HomeCU’s desktop and mobile banking, the credit union gains real-time access to their members with marketing pieces, alerts, and notifications,” said Chris Moore, Director of Marketing at HomeCU.

Positive Customer Impact

Many CruiseNet customers have already benefited from deploying these products. Currently, HomeCU is working with over 50 CruiseNet credit unions. Of those credit unions, many are taking advantage of HomeCU mobile apps, which make it easier for their members to engage with the credit unions from their mobile device. With features such as Remote Deposit Capture, Secure Forms, and eStatements, for an inexpensive fixed monthly fee, HomeCU provides a solution that helps credit unions retain and grow their membership base.

HomeCU and CruiseNet are committed to working together to deliver the best possible product integration with a continually enhanced solution.

ABOUT SYMITAR

Symitar, a division of Jack Henry & Associates, Inc. (NASDAQ:JKHY), is a leading provider of integrated computer systems for credit unions of all sizes. Symitar has been selected as the primary technology partner by more than 800 credit unions, serving as a single source for integrated, enterprise-wide automation and as a single point of contact and support.
